Notice of Decision - Approval

Please be advised that on behalf of the Commissioner of the Department of Environmental Management, I have issued a decision regarding the enclosed matter. Pursuant to 326 IAC 2, this approval was effective immediately upon submittal of the application.

If you wish to challenge this decision, IC 4-21.5-3-7 requires that you file a petition for administrative review. This petition may include a request for stay of effectiveness and must be submitted to the Office Environmental Adjudication, ISTA Building, 150 W. Market Street, Suite 618, Indianapolis, IN 46204, **within eighteen (18) calendar days from the mailing of this notice**. The filing of a petition for administrative review is complete on the earliest of the following dates that apply to the filing:

- (1) the date the document is delivered to the Office of Environmental Adjudication (OEA);
- (2) the date of the postmark on the envelope containing the document, if the document is mailed to OEA by U.S. mail; or
- (3) The date on which the document is deposited with a private carrier, as shown by receipt issued by the carrier, if the document is sent to the OEA by private carrier.

The petition must include facts demonstrating that you are either the applicant, a person aggrieved or adversely affected by the decision or otherwise entitled to review by law. Please identify the permit, decision, or other order for which you seek review by permit number, name of the applicant, location, date of this notice and all of the following:

- (1) the name and address of the person making the request;
- (2) the interest of the person making the request;
- (3) identification of any persons represented by the person making the request;
- (4) the reasons, with particularity, for the request;
- (5) the issues, with particularity, proposed for considerations at any hearing; and
- (6) identification of the terms and conditions which, in the judgment of the person making the request, would be appropriate in the case in question to satisfy the requirements of the law governing documents of the type issued by the Commissioner.

If you have technical questions regarding the enclosed documents, please contact the Office of Air Quality, Permits Branch at (317) 233-0178. Callers from within Indiana may call toll-free at 1-800-451-6027, ext. 3-0178.

Re: 131-16948-00008
Fifth Administrative Amendment to
S 131-7500-00008

Dear Ms. Maenhout:

Vulcan Materials Company, Francesville Quarry, was issued a Source Specific Operating Agreement (S 131-7500-00008) on January 21, 1997, for a stationary crushed stone processing operation. On March 21, 2000, Vulcan Materials Company submitted a review request to determine permitting requirements for a construction project to add one new conveyor to its existing conveying operation.

The Source Specific Operating Agreement that was issued on January 21, 1997, provided for the crushed stone operation with an annual throughput of less than three million (3,000,000) tons per year consisting of no more than nine (9) crushers, seventeen (17) screens, and one (1) conveying operation with particulate matter emissions limited to one hundred (100) tons per year (Conditions 1, 2, and 3). The construction project as described by Vulcan Materials Company consists of adding one conveyor to the existing conveying operation.

Based on the above information, no additional permitting approval is necessary for the described construction project. This determination is contingent upon the new conveyor being a part of the existing conveying operation, the annual throughput remaining below the three million (3,000,000) tons per year threshold, and that the particulate matter emissions for the entire crushed stone operation not exceed the one hundred (100) ton per year limit.

For your additional inquiries on instructions for performing the initial testing of the new equipment, please contact the Compliance Data Section, Office of Air Quality at the following address. A test protocol must be submitted no less than thirty-five (35) days prior to testing so it is important that you contact Compliance Data as soon as possible.
